Thanks also for 1/13 w label. That is possible two ways: accident and someone inside p.o. Suggest unless we find other cases, accident.

Note drop.

Siem: stress is in film, not sign. Purpose replacing sign prevent accurate reconstruction, not hide hit. No sign vibration in X film. Nor of hole unless at late shot, which is not likely for other reasons.

Should be home February. No plans return trial D.C. Only emergency will take me. Work here much more important. Clark made a major blunder in his "penal report". It destroys everything. Does shot top head, there is metal thorax, etc., and other unexplainedes. I've a 30,000 word analysis on paper, as I think I said.

Hurriedly, HH
